Attachments: FW: Tester Response; RE: CFAC Questions; FW: CFAC Tour

Hi, Sandy:

The attached email strings include some email exchanges regarding the Anaconda Aluminum/CFAC site and responses to questions from Senator Tester's office and a planned visit by Senator Tester to the site this Thursday (3/24). The tour is scheduled to begin at 11:00 a.m. on Thursday and last for no more than an hour. Attending for EPA will be Mike Cirian, RPM, and Robert Moler, CIC. Montana DEQ will have Tom Stoops, Federal Superfund Bureau Chief, and two staff attending. I will follow up with some talking points for Thursday's site visit.

Thank you,

Joe
